

## ADA Insurance Codes for Dental Implant Services

For your easy reference, J & F Dental Labs has provided this list of American Dental Association (ADA) codes for dental implant services. By doing so, the J & F team wants to help you accurately document the treatment you provide to your implant patients and facilitate payment from insurance companies.

If you have any questions about this list of codes or anything else related to lab services, contact **Laura Watkins** at [Laura@JF.Dental](mailto:Laura@JF.Dental) or call **724-327-4553, ext. 115**.

## Table of Contents

Pre-Surgical Services.....	3
Surgical Services.....	3-4
Implant-Supported Prosthetics: Supporting Structures.....	5
Implant/Abutment-Supported Removable Dentures.....	5
Implant/Abutment-Supported Fixed Dentures (Hybrid Prosthesis).....	6
Single Crowns, Abutment-Supported.....	7
Single Crowns, Implant-Supported.....	8
Fixed Partial Denture (FPD) Retainer, Abutment-Supported.....	9
Fixed Partial Denture (FPD) Retainer, Implant-Supported.....	10
Other Implant Services.....	11

## **Pre-Surgical Services**

### **D6190 -- Radiographic/Surgical Implant Index, by Report**

An appliance, designed to relate osteotomy or fixture position to existing anatomic structures, to be utilized during radiographic exposure for treatment planning and/or during osteotomy creation for fixture installation.

### **D6191 -- Semi-Precision Abutment -- Placement**

This procedure is the initial placement, or replacement, of a semi-precision abutment on the implant body.

### **D6192 -- Semi-Precision Attachment -- Placement**

This procedure involves the luting of the initial, or replacement, semi-precision attachment to the removable prosthesis.

## **Surgical Services**

**D6010** -- Surgical placement of implant body: endosteal implant.

**D6011** -- Second stage implant surgery. Surgical access to an implant body for placement of a healing cap or to enable placement of an abutment.

**D6012** -- Surgical placement of interim implant body for transitional prosthesis: endosteal implant. Includes removal during later therapy to accommodate the definitive restoration, which may include placement of other implants.

**D6013** -- Surgical placement of mini-implant.

## **Surgical Services, continued**

**D6040 -- Surgical Placement: Eposteal Implant.** An eposteal (subperiosteal) framework of a biocompatible material designed and fabricated to fit on the surface of the bone of the mandible or maxilla with permucosal extension which provide support and attachment of a prosthesis. This may be a complete arch or unilateral appliance. Eposteal implants rest upon the bone and under the periosteum.

**D6050 -- Surgical Placement: Transosteal Implant.** A transosteal (transosseous) biocompatible device with threaded posts penetrating both the superior and inferior cortical bone plates of the mandibular symphysis and exiting through the permucosa providing support and attachment for a dental prosthesis. Transosteal implants are placed completely through the bone and into the oral cavity from extraoral or intraoral.

**D6100 -- Implant Removal, by Report.** This procedure involves the surgical removal of an implant. Describe procedure.

**D6101 -- Debridement of a peri-implant defect or defects surrounding a single implant,** and surface cleaning of the exposed implant surfaces, including flap entry and closure.

**D6102 -- Debridement of the osseous contouring of a peri-implant defect or defects surrounding a single implant** and includes surface cleaning of the exposed implant surfaces including flap entry and closure.

**D6103 -- Bone graft for repair of peri-implant defect – does not include flap entry and closure.** Placement of a barrier membrane or biologic materials to aid in osseous regeneration are reported separately.

**D6104 -- Bone graft at time of implant placement.** Placement of a barrier membrane or biologic materials to aid in osseous regeneration are reported separately.

## **Implant-Supported Prosthetics: Supporting Structures**

**D6055 -- Connecting bar – implant supported, or abutment supported.** Used to stabilize and anchor a prosthesis.

**D6056 -- Prefabricated abutment – includes modification and placement.** Modification of a prefabricated abutment may be necessary.

**D6057 -- Custom fabricated abutment -- includes placement.** Created by a laboratory process specific for an individual application.

**D6051 -- Interim abutment.** Includes placement and removal. A healing cap is not an interim abutment.

**D6052 -- Semi-Precision Attachment Abutment.** Includes placement and removal. A healing cap is not an interim abutment.

## **Implant/Abutment-Supported Removable Dentures**

**D6110 -- Implant/abutment supported removable denture for edentulous arch – maxillary.**

**D6111 -- Implant/abutment supported removable denture for edentulous arch – mandibular.**

**D6112 -- Implant/abutment supported removable denture for partially edentulous arch – maxillary.**

**D6113 -- Implant/abutment supported removable denture for partially edentulous arch – mandibular.**

**Implant/Abutment-Supported Fixed Dentures (Hybrid Prosthesis)**

**D6114** -- Implant/abutment supported fixed denture for edentulous arch – maxillary.

**D6115** -- Implant/abutment supported fixed denture for edentulous arch – mandibular.

**D6116** -- Implant/abutment supported fixed denture.

**D6117** -- Implant/abutment supported fixed denture for partially edentulous arch – mandibular.

**D6118** -- **Implant/Abutment Supported Interim Fixed Denture for Edentulous Arch – Mandibular.** Used when a period of healing is necessary prior to fabrication and placement of a permanent prosthetic.

**D6119** -- **Implant/Abutment Supported Interim Fixed denture for Edentulous Arch – Maxillary.** Used when a period of healing is necessary prior to fabrication and placement of a permanent prosthetic.

## **Single Crowns, Abutment-Supported**

**D6058 -- Abutment-Supported Porcelain/Ceramic Crown.** A single crown restoration that is retained, supported and stabilized by an abutment on an implant.

**D6059 – Abutment-Supported Porcelain Fused to Metal Crown (high noble metal).** A single metal-ceramic crown restoration that is retained, supported and stabilized by an abutment on an implant.

**D6060 – Abutment-Supported Porcelain Fused to Metal Crown (predominately base metal).** A single metal-ceramic crown restoration that is retained, supported and stabilized by an abutment on an implant.

**D6061 – Abutment-Supported Porcelain Fused to Metal Crown (noble metal).** A single metal-ceramic crown restoration that is retained, supported and stabilized by an abutment on an implant.

**D6097 – Abutment-Supported Crown – Porcelain Fused to Titanium or Titanium Alloys.** A single metal-ceramic crown restoration that is retained, supported and stabilized by an abutment on an implant.

**D6062 – Abutment-Supported Cast Metal Crown (high noble metal).** A single cast metal crown restoration that is retained, supported and stabilized by an abutment on an implant.

**D6063 -- Abutment-Supported Cast Metal Crown (predominately base metal).** A single cast metal crown restoration that is retained, supported and stabilized by an abutment on an implant.

**D6064 – Abutment-Supported Cast Metal Crown (noble metal).** A single cast metal crown restoration that is retained, supported and stabilized by an abutment on an implant.

**#D6094 -- Abutment-Supported Crown (titanium and titanium alloys).** A single crown restoration that is retained, supported and stabilized by an abutment on an implant.

## Single Crowns, Implant-Supported

**D6065 – Implant-supported Porcelain/Ceramic Crown.** A single crown restoration that is retained, supported and stabilized by an implant.

**#D6066 – Implant-Supported Crown (porcelain-fused to high noble alloys).** A single metal-ceramic crown restoration that is retained, supported and stabilized by an implant.

**D6082 – Implant-Supported Crown (porcelain-fused to predominately base alloys).** A single metal-ceramic crown restoration that is retained, supported and stabilized by an implant.

**D6083 – Implant-Supported Crown (porcelain-fused to noble alloys).** A single metal-ceramic crown restoration that is retained, supported and stabilized by an implant.

**D6084 – Implant-Supported Crown (porcelain-fused to titanium or titanium alloys).** A single metal-ceramic crown restoration that is retained, supported and stabilized by an implant.

**#D6067 – Implant-Supported Crown (high noble alloys).** A single metal crown restoration that is retained, supported and stabilized by an implant.

**D6086 – Implant-Supported Crown (predominately base alloys).** A single metal crown restoration that is retained, supported and stabilized by an implant.

**D6087 – Implant-Supported Crown (noble alloys).** A single metal crown restoration that is retained, supported and stabilized by an implant.

**D6088 – Implant-Supported Crown (titanium and titanium alloys).** A single metal crown restoration that is retained supported and stabilized by an implant.

## **Fixed Partial Denture (FPD) Retainer, Abutment-Supported**

**D6068 – Abutment-Supported Retainer for Porcelain/Ceramic FPD.** A ceramic retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6069 – Abutment-Supported Retainer for Porcelain Fused to Metal FPD (high noble metal).** A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6070 – Abutment-Supported Retainer for Porcelain-Fused-to-Metal FPD (predominately base metal).** A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6071 – Abutment-Supported Retainer for Porcelain-Fused-to-Metal FPD (noble metal).** A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6195 – Abutment-Supported Retainer (porcelain-fused-to-titanium and titanium alloys).** A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6072 – Abutment-Supported Retainer for Cast Metal FPD (high noble metal).** A cast metal retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6073 – Abutment-Supported Retainer for Cast Metal FPD (predominately base metal).** A cast metal retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6074 – Abutment-Supported Retainer for Cast Metal FPD (noble metal).** A cast metal retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**#D6194 – Abutment-Supported Retainer Crown for FPD (titanium and titanium alloys).** A cast metal retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

## **Fixed Partial Denture (FPD) Retainer, Implant-Supported**

**D6075 – Implant-Supported Retainer for Ceramic FPD.** A ceramic retainer for a fixed partial denture that gains retention, support and stability from an implant.

**#D6076 – Implant-Supported Retainer for FPD (porcelain-fused to high noble alloys).**

A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an implant.

**D6098 – Implant-Supported Retainer (porcelain-fused to predominately base alloys).** A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an abutment on an implant.

**D6099 – Implant-Supported Retainer for FPD (porcelain-fused to noble alloys).** A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an implant.

**D6120 – Implant-Supported Retainer (porcelain-fused to titanium and titanium alloys).** A metal-ceramic retainer for a fixed partial denture that gains retention, support and stability from an implant.

**#D6077 -- Implant-Supported Retainer for Metal FPD (high noble alloys).** A metal retainer for a fixed partial denture that gains retention, support and stability from an implant.

**D6121 – Implant-Supported Retainer for Metal FPD (predominately base alloys).** A metal retainer for a fixed partial denture that gains retention, support, and stability from an implant.

**D6122 – Implant-Supported Retainer for Metal FPD (noble alloys).** A metal retainer for a fixed partial denture that gains retention, support, and stability from an implant.

**D6123 – Implant-Supported Retainer for Metal FPD (titanium and titanium alloys).** A metal retainer for a fixed partial denture that gains retention, support, and stability from an implant.

## **Other Implant Services**

**D6080 -- Implant Maintenance Procedures (when prostheses are removed and reinserted, including cleansing of prostheses and abutments).** This procedure includes active debriding of the implant(s) and examination of all aspects of the implant system(s), including the occlusion and stability of the superstructure. The patient is also instructed in thoroughly daily cleansing of the implant(s). This is not a per implant code and is indicated for implant supported fixed prostheses.

**D6081 -- Scaling and Debridement in the Presence of Inflammation or Mucositis of a Single Implant.** Includes cleaning of the implant surfaces, without flap entry and closure. This procedure is not performed in conjunction with D1110, D4910, or D4346.

**D6085 -- Provisional Implant Crown.** Used when a period of healing is necessary prior to fabrication and placement of permanent prosthetic.

**D6090 -- Repair Implant-Supported Prosthesis, by Report.** This procedure involves the repair or replacement of any part of the implant supported prosthesis.

**D6091 -- Replacement of Semi-Precision or Precision Attachment** (male or female component or implant/abutment-supported prosthesis, per attachment). This procedure applies to the replaceable male or female component of the attachment.

**D6092 -- Re-Cement or Re-Bond Implant/Abutment-Supported Crown.**

**D6093 -- Re-Cement or Re-Bond Implant/Abutment-Supported Fixed Partial Denture.**

**D6095 -- Repair Implant Abutment, by Report.** This procedure involves the repair or replacement of any part of the implant abutment.

**D6096 -- Remove Broken Implant-Retaining Screw**

**D6199 -- Unspecified Implant Procedure, by Report.** Use for a procedure that is not adequately described by a code. Describe the procedure. Local anesthesia is usually considered to be part of Implant Services procedures.
